

Laminate worktop finishes and textures

Etchings

A new surface texture offering a softly polished etched feel that emulates granite. (See page 13).

Honed

A new surface texture utilising a sheen satin finish to replicate the look and feel of natural stone. (See page 15).

'ar plus' (AB61)

Unique gloss finish providing enhanced wear and scuff resistance compared to all other gloss laminate worktops.

Universal

An alternative to the gloss finish, Universal offers a matt velour look and feel.

Crystal

A more traditional textured finish, offering a slightly stippled sheen look.

Axiom

Signature

The Axiom Signature range brings you a choice of stunning solid wood, solid surfacing and special texture laminate worktops, as well as a selection of eye-catching edging options.

Axiom Signature is about offering the householder a choice of stunning worktops, at competitive prices, that add that extra finish to your kitchen. Our solid wood worktops give you that sumptuous feel of natural wood whilst our solid surfacing worktops offer striking designs with a smooth surface texture and outstanding durability.

The range also includes Etchings and Honed; new laminate worktops that have the texture of granite and slate and provide a very cost competitive alternative to the real thing.

Finally, Axiom Edge gives you the choice of four contemporary edging options for that extra special finishing touch.

Solid Wood worktops

The Axiom Signature range of solid wood worktops offers you six beautiful surfaces to choose from. All manufactured to the highest standards, these 40mm thick worktops add that extra touch to your kitchen whether contemporary or traditional.
