**DUROPAL**

## DUROPAL COMPACT WORKTOPS

Duropol Compact Worktops are made of 12mm thick solid compact laminate, offering great impact and moisture resistance for applications with high demands. Duropol Compact Worktops are produced to DIN-EN-438, hardwearing and easy to clean. Our extensive collection comprises of 12 impressive decors ranging from 3 modern uni colours, through to 7 exciting and tactile stone decors and 2 natural woodgrains. The collection also features 3 core colours in grey, white and black. This homogeneous colour through-pigment creates a solid edge appearance. With Duropol you're covered from all directions ...

### COMPACT WORKTOP BEVELLED EDGE

All 12 Duropol Compact Worktops feature machined bevelled edges as shown in the above diagram. Worktops (4100 x 640 x 12mm) include the bevelled detail on the front long edge only, on breakfast bars (4100 x 950 x 12mm) the bevelled detail appears on both of the two long edges.

## DUROPAL COMPACT WORKTOPS - HIGHLY RESISTANT TO ...

Melamine resin is the hardest of all synthetically produced organic materials. This is the reason for the high scratch and wear resistance of Duropol-HPL. The high impact resistance of the material is due to the elasticity of phenolic resin. These properties also explain the high resistance of HPL to chemicals and heat. Burning a cigarette on the surface of HPL is one of the quality tests specified in DIN-EN 438, which also determines all the other qualities important for the user. However, the bottoms of saucepans and ovenware can become extremely hot and we recommend using a protective pad.

- sunlight
- scratching
- impact
- abrasion

- tea stains
- coffee stains
- red winestains
- ink stains

- fruit juice
- steam
- cigarette burns

### CLEANING AND CARE INSTRUCTIONS

A major advantage of Duropol Compact Worktops is that the HPL surface makes cleaning so simple. Usually a moist cloth is sufficient, but use washing-up liquid to get rid of any grease. Stubborn dirt can be removed with an organic solvent such as methylated spirits or alcohol. There's nothing easier than cleaning and caring for Duropol Worktops.

## HPL MDF BACK PANELS

Consisting of an 8 mm E1 medium density fibreboard (MDF) core surfaced with genuine Duropol high-pressure laminate manufactured to DIN-EN 438. Available in the following sizes:

4,100 x 640 x 9.2 mm nominal (8 mm MDF core) / 2,050 x 1,300 x 9.2 mm nominal (8 mm MDF core)

Please ensure that due care is taken to correctly seal the product to prevent moisture ingress.

## HPL COMPACT UPSTANDS

Duropol HPL Compact Upstand available in the following size:  
4,100 x 120 x 12 mm nominal (top edge bevelled)

Enhance your Duropol Compact Worktop with a matching Duropol HPL Compact Upstand. This accessory offers a cost-efficient and hygienic alternative to tiling.

\* For installation behind hobs, check with hob manufacturer's fitting instructions to ensure that suitability and distance requirements are met. Please ensure that due care is taken to correctly seal the product to prevent moisture ingress.
