- › Top oven 4 functions
- › Lower oven 8 functions
- › 40/42 litres
- › A/A+ energy

ACCESSORIES

Caple has teamed up with the creators of MEATER+, the Smart Wireless Meat Probe. Using bluetooth, connect the probe with your smartphone to monitor how your food is cooking.

Select how you would like it cooked, for example medium rare, your phone will then notify you once the joint is ready and calculate the resting time required.

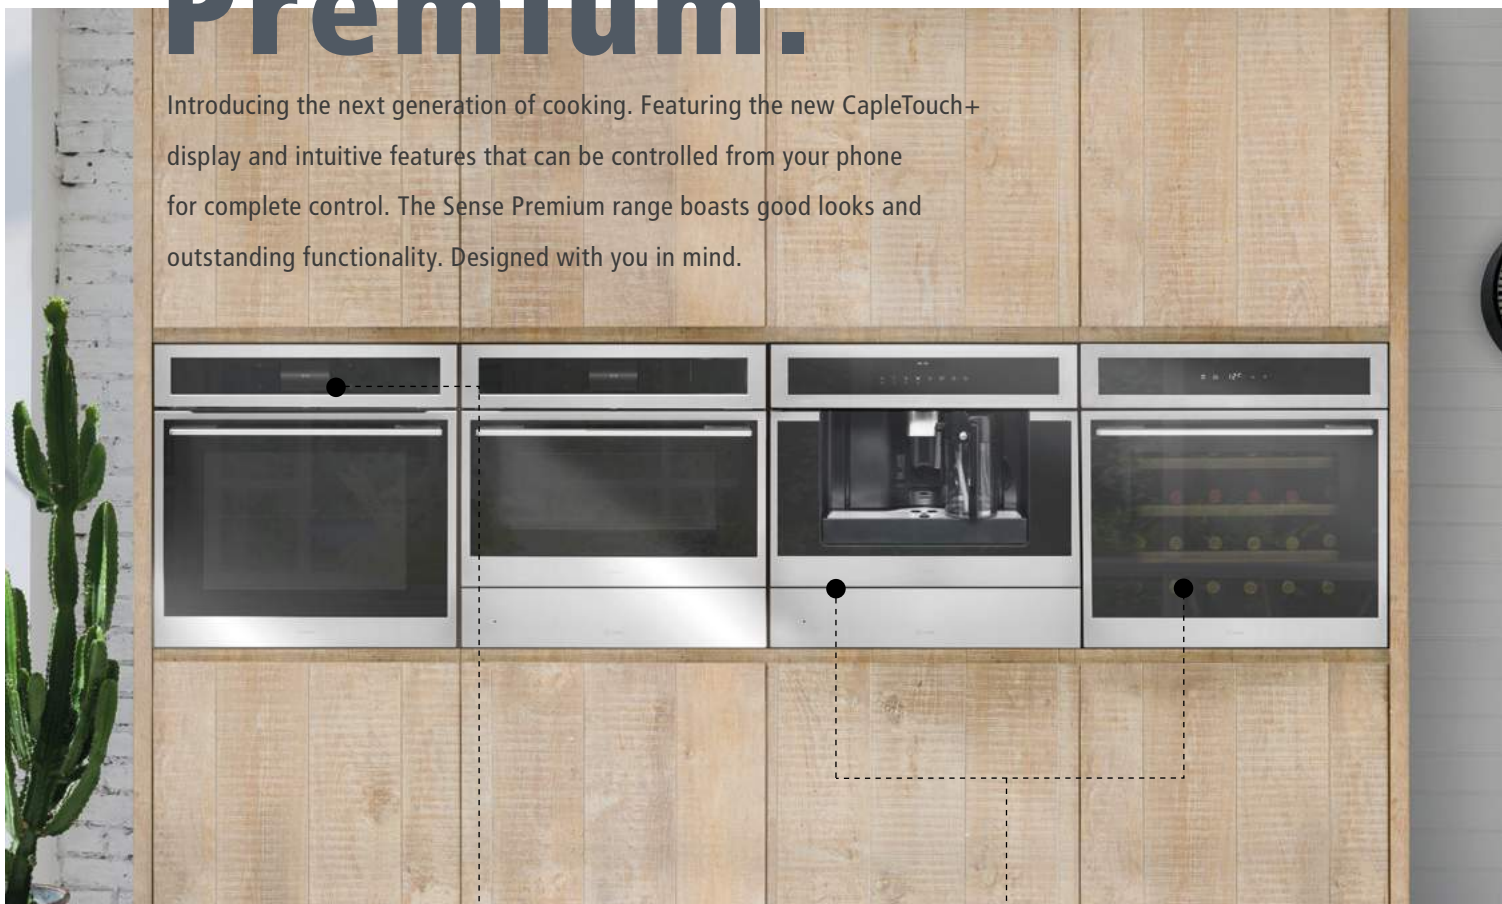

MEATER+ £99

- › Meater+ wireless meat probe
- › iOS and Android compatible

Sense Premium.

Introducing the next generation of cooking. Featuring the new CapleTouch+ display and intuitive features that can be controlled from your phone for complete control. The Sense Premium range boasts good looks and outstanding functionality. Designed with you in mind.

CAPLETOUCH+

The new Sense Premium cooking range features CapleTouch+ display. Saving your family favourites & setting multi-stage cooking timers, couldn't be easier with the intuitive interface.

GET THE LOOK

Complete the look with a coffee machine and wine cabinet designed to match the Sense Premium aesthetic to achieve showstopping results.

CAPLE HOME APP

Scroll through functions and save your favourite settings with ease. Download the CapleHome App to control your appliance from your smart phone or tablet.

WIFI ENABLED

Using the latest smart technology our Sense Premium ovens use WiFi so you can control your oven with ease.

MULTI-STAGE COOKING

Some dishes require multiple functions at different stages of cooking. Multi-stage cooking does this for you without the fuss.

CAPLE RECIPES + FAVOURITES

Use the CapleHome App to access the latest recipes, save your family favourites & multi-stage cooking settings.

PIZZA

Create the perfect pizza in 2 min 45 seconds. Choose from thin & crispy or deep pan & the oven will then do the rest for you!

SLOW COOKING

Cook over a long period of time at 90°C using conventional heat, perfect for succulent stews that melt in the mouth.

PYROLYTIC CLEANING

Pyrolytic technology works by heating the oven to 475°C, causing even hidden & baked-on grime to carbonise into a fine ash. It saves you vast amounts of elbow grease, and can in-fact improve oven efficiency over time.

MEAT PROBE

Insert the probe into the meat, the meat probe icon will automatically display on the screen to set the core temperature, the oven will rise to 250°C to sear the meat and drop back down. Once core temperature is reached the oven will turn off to ensure the meat is cooked perfectly.

DEHYDRATE

This function uses fan heat, with a pre-set temperature of 60°C with options to select 50°C and 70°C.

PROVE

Create the perfect dough using the prove function which uses base heat at a temperature of 30°C.

WARM+

Uses base heat, with a pre-set temperature of 75°C or 100°C to keep your food warm, just in case someone is running late!

MotionHeat+

Sense Premium.

COMBINATION MICROWAVES

WITH STEAM

EASILY ACCESSIBLE WATER TANK

The water tank is conveniently located within the control panel and automatically opens at the touch of a button.

STEAM + MICROWAVE

Versatility is key with our new innovative combination steam microwave. This revolutionary, built-in appliance enables you to steam, grill, bake and microwave your food simply.

CAPLETOUCH+

The new Sense Premium cooking range features CapleTouch+ display. Saving your family favourites & setting multi-stage cooking timers, couldn't be easier with the intuitive interface.

CAPLE HOME APP

Scroll through functions and save your favourite settings with ease. Download the CapleHome app to control your appliance from your smart phone or tablet.

WIFI ENABLED

Using the latest smart technology our Sense Premium ovens use WiFi so you can control your appliance with ease.

MULTI-STAGE COOKING

Some dishes require multiple functions at different stages of cooking. Multi-stage cooking does this for you without the fuss.

CAPLE RECIPES + FAVOURITES

Use the CapleHome App to access the latest recipes, save your family favourites & multi-stage cooking settings.

STEAM

The steam function temperature ranges from 40-100°C and automatically sets duration to 20 minutes. However cooking time can range from 1min to 9hrs 59 minutes.

STEAM+

Set the oven to inject steam at specified intervals into the oven cavity during cooking to achieve restaurant quality results in your home.

MICROWAVE + STEAM

Starting with the steam function the temperature increases to 100°C. The microwave and steam functions then alternate for speedy results and maximum flavour.

GRILL + STEAM

The grill element operates combined with steam to help preserve moisture and flavours in food.

FAN HEAT + STEAM

Fan element with added steam and heat distribution with the added benefit of the steam injecting moisture into the cavity.

MICROWAVE + TURBO GRILL

Uses microwave, fan and grill for quick browning. Ideal for cooking a whole chicken.

MICROWAVE + FAN HEAT

Reduce cooking times with the addition of fan heat for even cooking.

- › Touch control with white LCD display
- › Fully automatic
- › Adjustable bean grinder
- › Milk jug included

SOFT CLOSE

The C2105SS features a clever soft-close door which activates when the door is inches away from the closed position. The hinge gently moves the door into place, preventing it from coming to an abrupt close.

PYROLYTIC OVEN

The C2402SS Pyrolytic technology works by heating the oven to 475°C, causing even hidden-away & baked-on grime to carbonise into a fine ash. It saves you vast amounts of elbow grease, & actually improves oven efficiency over time too.

MOTIONHEAT+

MotionHeat+ technology utilises specially designed vents and fan heat to evenly distribute hot air around the oven cavity. It reaches the desired temperature rapidly with no need to preheat, saving time & energy. Perfect for multi-level cooking without the transfer of flavours, achieving even results every time.

INSTALLATION TIP:

We recommend that when installing a stack or quad of products, a pair of our installation brackets [OVEN/BRACKETS2] are purchased to support the upper product ensuring a seamless fit.

HOBS

Whether you choose gas, electric or induction, Caple's advanced technology and unswerving eye for detail means real control and stylish good looks every time.

C990i **£3690**

- › Full surface, zoneless induction hob
- › 21 Power levels
- › Smart pan detection
- › Automatic pan move
- › 920mm width
- › Touch control with full colour TFT screen
- › 6 Boosters

SMART PAN DETECTION

Capable smart pan detection means you can utilise the full C990i hob surface. The hob will instantly recognise and adapt to the pan size and position. It detects up to 6 pans at once.

TFT TOUCH SCREEN

The TFT touch screen allows you to easily select cooking options through a seamless full colour display.

21 POWER LEVELS

Including half power levels and boost. For example, 1, 1.5, 2, 2.5 and so on, for precise control when cooking.

AUTO BRIDGE FUNCTION

Auto bridge function to link zones for larger pans.

BOOSTER

Saves time by increasing power for a quicker boiling time. Available across all zones.

Sense Premium FULL SURFACE INDUCTION HOB

C990i £3690

- > Full surface, zoneless induction hob
- > 21 Power levels
- > Smart pan detection
- > Automatic pan move
- > 920mm width
- > Touch control with full colour TFT screen
- > 6 Boosters
- > Bridgeable zones
- > AVAILABLE JULY

The intuitive C990i full surface, zoneless induction gives you complete cooking control. Packed full of intelligent features all controlled by a touch control TFT screen.

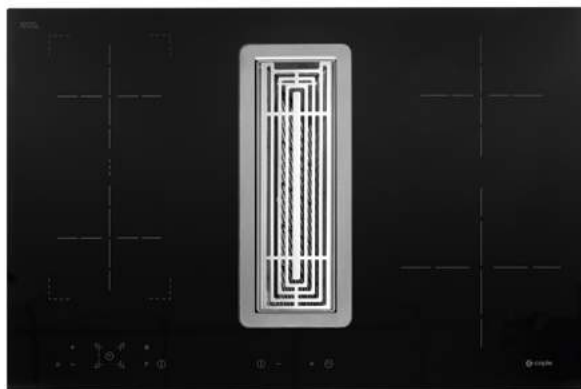

Pan move allows you to move the pan from one area to another taking all settings to the new location.

For the serious chefs, this full surface hob allows use to six pans at any one time with boosters on each.

INDUCTION DOWNDRAFT EXTRACTORS

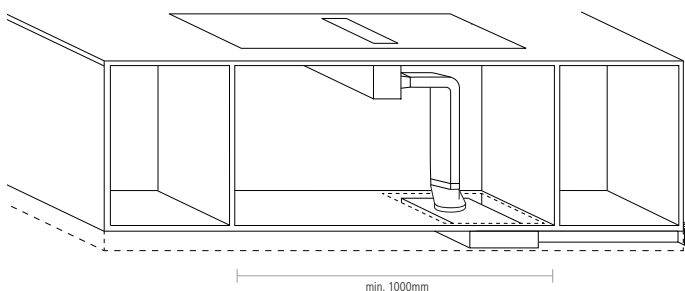

DD780BK £1710

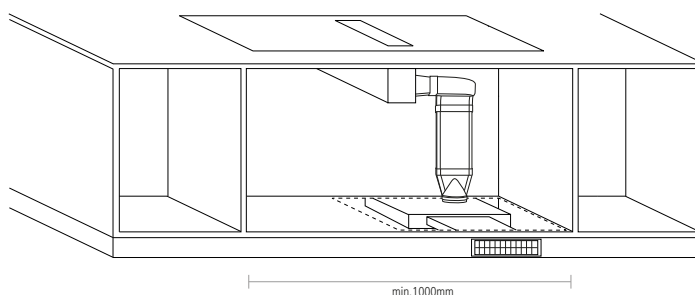

- › Induction Downdraft
- › Plinth motor included
- › 780mm width
- › Touch control
- › 4 induction zones
- › 4 boosters
- › A energy
- › Recirculation kit CAP81CF [included]

DD780BK SPACE SAVING INSTALLATION

The DD780BK has been designed to fit into a standard base unit so no need for an island if space is at a premium. What's more it can be ducted in any direction and the convenient, magnetic charcoal filter sits outside the plinth for easy access.

DD780BK ducted to the end of the run.

DD780BK ducted to the front of the unit.

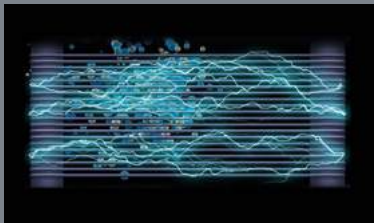

DD940BK INDUCTION HOB & DOWNDRAFT WITH PLASMA TECHNOLOGY

The powerful, ultra quiet motor draws the cooking vapour through the 12 stage filter, removing grease and moisture.

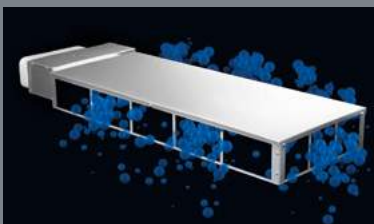

Discreetly positioned behind the plinth, the motor draws the air through the ducting, on towards the filters.

The first filter creates the 4th stage of matter, Plasma. A trusted technology developed by the German university of Göttingen. The Plasma removes 95% of the odours passing through it.

A carbon filter removes any remaining odours and has an anticipated life span of 5 years or more when used with a plasma filter.

Clean air is then recirculated back into the room.

PLASMA EXPLAINED

Watch our plasma video online at www.caple.co.uk

- › Cast iron pan supports
- › Flame safety device
- › 5 burners

DirectHeat+

DIRECTHEAT+

Developed with cutting-edge design and outstanding efficiency in mind, DirectHeat+ sends the heat upwards directly towards the base of the pan via 45° inclined flame. More heat hits the base of the pan rather than escaping around the sides, therefore decreasing boiling time and bringing food to temperature more rapidly.

GAS HOBS

C749G **£292**

- › 590mm Gas hob

C774G **£436**

EXTRACTION

A well-engineered extractor hood does more than just help to capture odours from your kitchen. Be bold, and use it as a visual focal point too.

DOWNDRAFT EXTRACTORS

DOWNDRAFT EXTRACTORS

Caple downdraft extractors are the epitome of intelligent thinking in kitchen design. With an ingenious under-counter installation, wall space is kept clear and when integrated into an island unit, views across the kitchen remain uncluttered.

FREE 2 YEAR GUARANTEE

Across all Caple appliances we offer a free 2 year guarantee on parts and labour. When selecting the components to design your perfect kitchen it is important you have the right assurance without spending an extra penny.

- › For downdraft extractors and ceiling hoods

CEILING HOODS

CEILING EXTRACTORS

Every caple ceiling extractor uses our perimetric extraction system, which draws air in through narrow apertures around the full perimeter of the pan.

It means higher air pressure, greater efficiency and less noise.

ILLUMINATED LIGHT RING

The seamless integration of lighting and extraction puts the COR540SL hood in a league of it's own.

The 750mm wide halo glow not only illuminates the hob below, it also creates the perfect ambience when entertaining.

COR540SL £1615

- › Ceiling unit 540mm wide

MAKE A STATEMENT:

The striking aesthetics of Tauri sets this hood apart from the rest. Featuring a sleek, glass fronted touch control panel & exposed stainless steel filters, it's sure to make an impact.

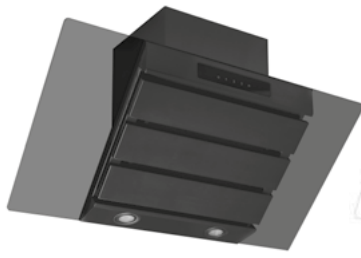

THE PERFECT CHOICE:

The light box illuminates the hob below so you can see exactly what your cooking. Combine this with impressive performance and finish off with simple touch controls.

VENTING CHOICES - Ensure you purchase the correct venting kit for your Caple extractor. For the full range please see page 54 - 55.

- › Recirculation kit CAP80CF

POWERFUL EXTRACTORS:

Our FGC920, FGC720 & FGC620 all have a powerful maximum extraction rate of 580m3/h, perfect if you're looking for style & functionality at an affordable price.

EXCELLENT ENERGY SAVING:

The TBU850 boasts an A+ energy rating, as well as a powerful extraction rate of 772m3/h.

Discreet built-in installation for an uninterrupted run of wall units.

KEEP IT CONVENTIONAL:

If you're on a budget why not go for our FSCHSS9 at £118.

VENTING CHOICES - Ensure you purchase the correct venting kit for your Caple extractor. For the full range please see page 54 - 55.

FROST FREE

No more laborious defrosting with a scraper. Our frost-free system works by heating up an element for a short time, which melts the ice and prevents build-up. Keeping a freezer ice-free means food stays fresher for longer. Freezing food is also much quicker, preserving as many nutrients as possible and freeing up much needed storage space.

ENERGY CHANGES EXPLAINED

As a result of the development of more and more energy efficient appliances, nearly all large domestic appliances are located in the top of the energy label scale and are clustered between A++ and A+++.

The EU energy label scale will be adjusted to reintroduce the simpler A to G scale, with no plusses making it easier for consumers to compare products.

The rescale means that products which may currently be A+++ energy class, will end up being D and E in the new structure.

This does not mean that they are less energy efficient, in fact many of the changes Caple have made mean that the products you will see as D or E actually use less energy than a current A+++ product.

FREE 2 YEAR GUARANTEE

Across all Caple appliances we offer a free 2 year guarantee on parts and labour. When selecting the components to design your perfect kitchen it is important you have the right assurance without spending an extra penny.

WINE CABINETS

Now you're talking. This is lifestyle kitchen at its best and most fun. However, while a dedicated space for wine may seem wonderfully decadent, it has a vital role to play. Wine is fussy about how it's housed, and will be at its drinking best if it's been properly looked after.

Caple's wine cabinets ensure your wine is kept at the optimum temperature and humidity, with UV-proof glass, the right level of air circulation and low-vibration technology [so the wine isn't disturbed until you're ready to pour it].

Wi6150 £1222

Sense Premium

TELESCOPIC SHELVES

The beech and stainless fronted telescopic wire shelves are gentle on the bottles, reducing any accidental scratches on the label and allowing you to easily view your collection. Perfect for Burgundy, Bordeaux and Champagne bottles.

AIR PURIFYING TECHNOLOGY

Charcoal filters eliminate odours and impurities in the air, preventing the from penetrating the cork, to ensure your collection is at its best when it comes to serving.

PREMIUM FUNCTIONALITY

Four light settings and four functions including Eco means you can find the right storage environment to suit your wine.

Available on:
WC1800, Wi6161, Wi6150, Wi3150

All prices are retail inc VAT.

Sense Premium

INTUITIVE LIGHTING & PREMIUM FUNCTIONALITY

ON/OFF

Internal light is continuously on. Three minutes after closing the door light will dim for a more subtle look.

DOOR OPENING

Internal light will switch on when the door is opened, and off when the door is closed.

TIMER

This function keeps the lights on for 1 minute once the door is closed and then switches off.

BRIGHTNESS

Once a light function is selected you can adjust the brightness of the internal lighting.

NORMAL MODE

The wine cabinet will operate with the temperature you select.

ECO MODE

Lighting and control panel turns off and the compressor is delayed. Perfect for saving energy.

INTELLIGENT MODE

The fan speed adjusts according to the ambient temperature so the cabinet doesn't have to work as hard and also saves energy.

DEMO MODE

Primarily for retail use. In this mode the compressor and heater are disabled and the fan input is reduced.

Available on:
WC1800, Wi6161, Wi6150, Wi3150

FILLER PANELS & PLINTHS

If you have a reduced plinth height you can use a filler panel made from the same material as the wine cabinet, to create a seamless look with no gap.

A full plinth or recessed plinth grille option is available for our undercounter wine cabinets.

They neatly cover the ventilation hole in the plinth and blend in with your kitchen décor.

- › Anti-overflow protection

TDI4000 HEAT PUMP TECHNOLOGY

The TDi4000 has the functionality of a freestanding model but with the seamless integration of a built in tumble dryer. Caple are one of the few brands to have a tumble dryer with Heat Pump Technology that can also be built in.

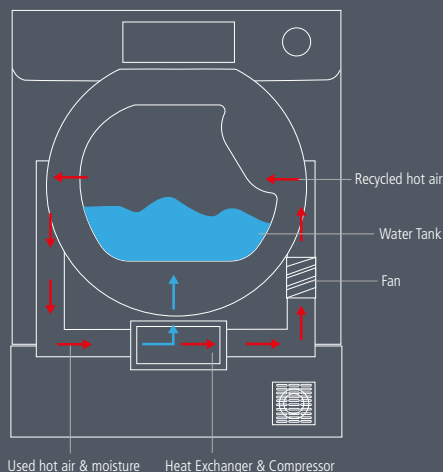

TDi4000 £949

- › Heat pump tumble dryer
- › Sensor dry
- › Energy A+
- › 7kg
- › 15 programmes
- › In-door water tank
- › Pair with WMi4000

HEAT PUMP EXPLAINED

Heat pump tumble dryers have a condenser that separates water from the warm air that passes over the wet clothes and puts it in a water tank.

The remaining dry warm air is then pumped back through the drum, re-using it to help the clothes dry faster. This makes them by far the most energy-efficient of all the tumbler dryer types available.

TDI4000 VENTILATION

Ensure your tumble dryer is well vented and the plinth is notched correctly.

For a discreet and seamless finish, use one of our integrated plinth grilles to cover the aperture.

- > Can be used with downdraft hoods

970W £23

- > Suitable for connecting 150mm round to rigid ducting
- > 220 x 90mm
- > Can be used with downdraft hoods

100mm Venting: Suitable for venting cooker hoods and tumble dryers fitted with 100mm outlets where the duct run is short. It is recommended for applications requiring low extraction rates of up to 250m³/h. [Equivalent flat channel dimensions 110mm x 54mm].

125mm Venting: Recommended for air extraction installations involving longer duct runs or several bends. It is essential where extraction rates of 250 - 500m³/h are required. [equivalent flat channel dimensions 204mm x 60mm].

150mm Venting: Recommended for high powered extractors with rates of 500m³/h and above. [equivalent flat channel dimensions 220mm x 90mm].

External Motors: Due to the power and fitment of Caple external motors [DDMEXT21, DDMEXT28, DDMEXT30 and DDMEXT40], rigid ducting must be used.

VENTS & PLINTH GRILLES

PLINTH GRILLES

These stylish, stainless steel, top fixing plinth grilles are available in 230mm and 525mm lengths, for use with any of the cooling products. They cover the necessary ventilation hole in the plinth and will effortlessly blend in with any kitchen décor.

HYGIENE FINISH

HYGIENE FINISH
Some of our handmade ceramic sinks are specially glazed to reduce surface bacteria by 99.99% preventing germs from spreading. Unlike a thin coating, the anti-bacterial glaze will last the lifetime of the sink and is safe to use in every environment.

INSET SINKS

ASH15W £425

ASHFORD 150

Matching METALLICS

Get the look

COORDINATING COLOURS

Matching metallics has never been easier with our ever growing family of co-ordinating metallic products, featuring our latest addition, Black Steel.

From our Sense Gunmetal appliances, to our stunning choice of metallic sinks, taps and furniture handles, there is a metallic finish for everyone!

With our new range of metallic wastes and overflows you can match your sink accessories to your chosen tap. Fits any sink with a 90mm waste outlet.

PULL OUT & SPRAY TAPS

PULL-OUT SPRAY TAPS

The powerful spray makes it so much easier to wash and rinse items. Used in most professional kitchens worldwide, it's a must-have for accomplished chefs.

The secret is in the nozzle. As well as a powerful spray, some models have a long flexible hose that can be pulled out allowing you to move the tap freely around the sink.

WASTE DISPOSAL

A waste disposer hidden away under the sink can help you recycle your food scraps and leftovers like potato peelings, chicken bones, egg shells and tea bags. It's clean, it's green and it leaves less to clutter up your bin. It also reduces any decomposing food odours.

WDU050 £154

0.5HP WASTE DISPOSAL UNIT

- › Suitable for air switch
- › Continuous feed
- › 2 Year guarantee

WASTE DISPOSAL UNITS

FOOD WASTE DISPOSAL

A waste disposer hidden away under the sink can help you to recycle your food scraps and leftovers like potato peelings, chicken bones, egg shells, and tea bags. It's clean it's green and it leaves less to clutter up your bin. It also reduces any decomposing food odours.

Premium

EASY INSTALLATION

The lightweight and compact design of the WDU125 features easy mount installation, a system that enables fast easy installation.

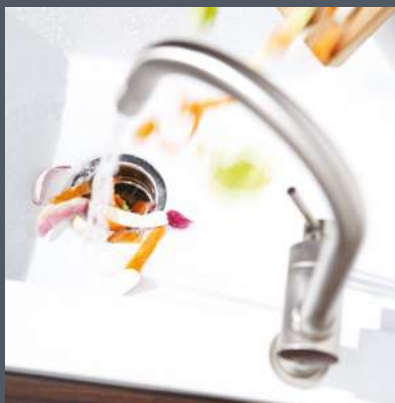

PREMIUM FEATURES

The lightweight and compact design of the WDU125 features easy mount installation and 1.25hp motor and gliding system with a superior torque grind speed for a long system life and maximum power.

BIO SHIELD ODOUR PROTECTION

With Bio Shield odour protection, the WDU125 is treated with Antimicrobial agent to provide ultimate protection against the growth of bacteria and subsequent odours. Features a 1.25hp motor and grinding system with a superior torque grind speed for a long system life and maximum power.

All models carry a lifetime corrosion proof guarantee, this warranty covers against failure due to corrosion.

WDU125 £474
